

Outdoor Education 2027

The Seaton High School Outdoor Education Entrepreneurial SACE Package is designed for students who love adventure, value teamwork and leadership, and are passionate about making a difference for our environment. Experience hands-on learning, challenge yourself in the outdoors, and develop skills to thrive beyond school.

Students participate in camps, expeditions, environmental action projects and outdoor challenges that develop leadership, teamwork, resilience and problem-solving skills. Through hands-on experiences, students build practical outdoor skills while exploring sustainability, environmental stewardship and personal development.

This program is open to Year 10 and 11 students in 2027 with a pathway to Stage 2 Applied Environmental Studies in Year 12. Students engaging in this program will complete Stage 1 Outdoor Education (20 credits).

This Entrepreneurial SACE Package enables students to pursue further study and careers in:

- Environmental Science and Management
- Outdoor Recreation and Adventure Tourism
- Park Management and Conservation
- Teaching and Education
- Leadership roles in Community Programs
