

Dance Specialist Program 2028

**Expressions of Interest are now open
for Year 7, 2028**

The Dance Extension Specialist Entry Program offers an integrated learning experience in Dance, Movement, Fitness, Nutrition, and Wellbeing. Students build confidence, resilience, creativity, leadership, and healthy lifestyle habits, supporting both personal growth and academic success through a focus on Dance. At its core, the program emphasises the interconnected nature of wellbeing, nutrition, movement, and resilience, all working together to enhance the purpose, impact, and lifelong value of why we dance.

Entry is not based on elite skill or prior dance experience; rather, students are welcomed through interest, ensuring the program is accessible to all. This approach allows students who may not dance outside of school to develop technical skills, confidence, build on their wellbeing and resilience, and ultimately grow their passion and creative expression in a supportive environment.
